Features

- 250 lbs. load capacity (when used in pairs).
- Fully welded heavy gauge steel tubing construction.
- Universal design fits most pickup trucks, as well as RKI Service Bodies.
- Multiple installation locations include driver side, passenger side, front and rear, or rear only.
- Vertical height¹ can be adjusted from 42" to 49" for a custom fit to a variety of applications.
- Load area adjusts from 19" to 34" wide to accommodate various ladder and material widths.
- Durable polyester powder coat finish for years of service is available in black or white.
- Adjustable steel Ladder stop and hook-n-loop straps included to aid organizing and restraining cargo.
- Protective strips on the load surface shield ladders from wear during loading/unloading and transport.
- Main vertical uprights are easily removed from mounting base when the rack is not needed.
- All mounting brackets and hardware are included for the installation.
- Made in USA and includes the RKI standard Lifetime Warranty.
