

**Features**

- Locks all doors on body side with one padlock per side. Padlock not included.
- New MLS design with two-part rod assembly has streamlined manufacturing and installation (see Bulletin P2127)
- Spring-assist is now standard (spring is detachable), and provides smooth operation with low efforts
- Strength of locking system increased more than 50%, providing additional compartment security
- New part numbers for handling RFC or #2 configurations (see below)
- Retrofitting of pre-built bodies is straightforward (minor changes required on bodies prior to s/n A35435)\*\*
